

Tarro Public School

Creating Opportunities

What makes a quality school?

The answer is in the creation of a learning environment which values and engenders a strong sense of community, creates a caring atmosphere, and sets high expectations and standards in which the achievement, wellbeing and engagement of all students is central.

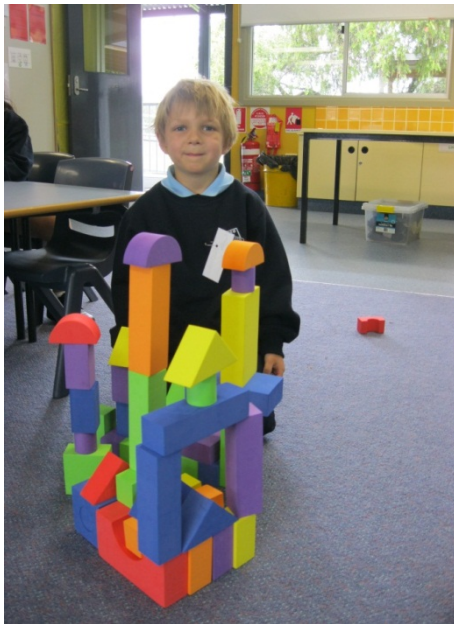

Tarro's mission is to “Create Opportunities” at every possibility.

As a National Partnership Low SES school, the importance of making a real difference to children's lives is critical.

Through a highly structured playground environment, quality creative and performing arts programs, sports programs and engaging classrooms we have delivered.

From the moment you enter our front gate till the time you leave, Tarro PS promotes an atmosphere of nurturing, care and support.

We have a relentless focus on quality at every level.

TARRO PUBLIC SCHOOL

"Creating Opportunities".

Our school success has:

- ▶ Strong leadership that is shared, stable, strategic and sustained over time
- ▶ Initiatives tailored to the vision, direction and context of our school
- ▶ High levels of expectation and teacher efficacy
- ▶ A supportive learning environment
- ▶ Engender pride in the school
- ▶ A focus on what matters most
- ▶ A staff culture of collective responsibility and sharing
- ▶ Data used to drive improvement
- ▶ Structured teaching programs to ensure all students succeed
- ▶ Building teaching and leadership expertise through focussed professional learning.

Our successes were not achieved overnight. A stable and consistent team worked on a whole school strategic approach.

Consistency of values, vision and mission for a number of years in real partnership with our community was “at its heart.”
